Esker Partners with Oracle to Deliver Added Value Through Intelligent Document Automation

New alliance offers immediate additional value through Esker DeliveryWare integration

Madison, WI, June 27, 2005—Esker Software, a leading provider of intelligently automated document delivery solutions, today announced it has joined the Oracle® PartnerNetwork, offering complete business document delivery capabilities to reduce costs, streamline business processes, simplify the IT infrastructure and increase productivity by automating the flow of information processed through Oracle E-Business Suite applications.

The partnership's objective is to help Oracle customers achieve the rapid efficiency gains available with Esker DeliveryWare, combining seamless integration, leading-edge data recognition and formatting technology to compose and deliver professional business documents quickly and accurately. Patented Esker technology automates every phase of information delivery in a comprehensive platform designed to be easy to implement and maintain.

Documents processed through Oracle Applications from any department in an organization can be automated quickly with Esker DeliveryWare. Typically, these include: invoices, purchase orders, statements, order confirmations, bills of lading, financial reports and similar documents. According to Esker, integrating Esker DeliveryWare with Oracle E-Business Suite to deliver these types of common documents can save organizations thousands of dollars on their business communication costs every month.

"Esker DeliveryWare is ideally suited to complement the Oracle process," says Jean-Michel Bérard, Worldwide Chief Executive Officer at Esker. "Following the implementation Oracle customers will benefit from an immediate impact including improved cash flow, increased employee productivity, accelerated document flow and the elimination of process bottlenecks."

(more)

Enhancing Oracle E-Business Suite as a way to put all of an organization's business information in one place, Esker DeliveryWare provides a single solution for delivery of information — directly into and out of Oracle Applications — to further automate, streamline, and simplify business processes for even greater efficiencies and deeper cost reductions. Specific features and benefits include:

♦   Seamless integration with Oracle products

♦   End-to-end automation of existing business processes without changing source code

♦   Automated delivery of mission-critical documents directly from Oracle applications

♦   Inbound image recognition and workflow capabilities to reduce data entry

♦   PDF file conversion, report generation, and wireless document delivery

♦   Delivery tracking notification and status for improved business communication control

♦   Lower costs associated with delivering documents to customers and suppliers

♦   Increased communication flexibility through Esker On Demand "Software as a Service" hosted fax and postal mail options

About the Oracle PartnerNetwork
The Oracle PartnerNetwork is a global business network of more than 14,000 companies who deliver innovative enterprise software solutions based on Oracle software. Through access to Oracle's premier products, education, technical services, marketing and sales support, the Oracle PartnerNetwork provides partners with the resources they need to be successful in today's global economy. Oracle partners are able to offer customers leading-edge solutions backed by Oracle's position as the world's largest enterprise software company.

About Esker
Esker is the intelligent document delivery leader. With software and hosted delivery services to automate every phase and every type of document delivery, Esker helps organizations streamline manual, paper-intensive business processes and automate the flow of documents into, within and outside the organization providing significant and immediate operational efficiencies, cost savings and measurable ROI in as little as three to six months.

Esker intelligent document delivery solutions include **Esker DeliveryWare** – a single, universal information exchange platform that captures, formats, converts, routes and stores documents using patented, content-based delivery technology and **Esker on Demand** – document delivery services enabling physical mail, fax, email and SMS delivery from enterprise and desktop applications with no printers, mailroom equipment, fax machines, office supplies, etc.

Founded in 1985, Esker operates globally and has over 70,000 customers and millions of licensed users worldwide. Esker has global headquarters in Lyon, France and U.S. headquarters in Madison, WI. For more information, visit www.esker.com or www.eskerondemand.com.
