

FEU VERT

REDUCING INVOICE PROCESSING TIME BY SIX DAYS WITH CLOUD-BASED AUTOMATION

BACKGROUND

Feu Vert, a European leader in automobile equipment and maintenance, processes invoices from more than 2,200 suppliers for its 462 stores across Europe. Prior to implementing Esker, the company relied on manual methods to manage these invoices – spending large amounts of time and resources in the process.

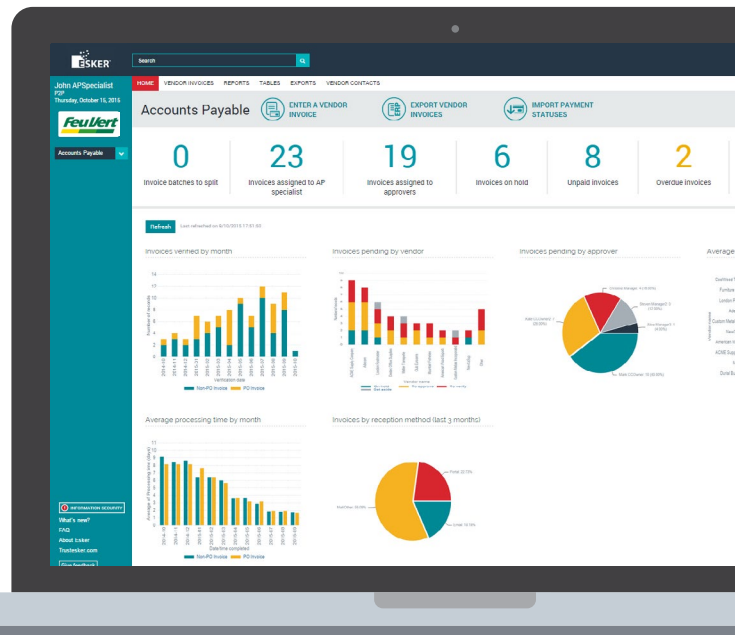

Looking to replace its old accounts payable (AP) process with a more efficient, modernized solution, Feu Vert had the following objectives:

- 1 **Improve productivity**
- 2 **Increase on-time payments**
- 3 **Enhance supplier relationships**
- 4 **Enable staff to focus on more value-added tasks**

SOLUTION

Previously, Feu Vert divided tasks like data entry, invoice reconciliation, exceptions handling, dispute management and supplier relations among its team members. With Esker, Feu Vert's 20-member accounting team has been able to eliminate manual data entry, reduce errors and gain higher job satisfaction on a daily basis. Thanks to AP automation, **nearly 9 out of 10 invoices are processed with no manual intervention.**

In addition to preparing their internal teams for Esker's solution implementation, Feu Vert also communicated with its suppliers to request that order numbers be included on invoices to ensure 3-way matching between invoice, purchase orders and goods receipts.

*"We chose Esker for its **scalability**. They offered a **flexible solution implementation** – something we had yet to see offered by any other competitor on the market."*

Christophe Volay | Accounting Manager

BENEFITS

Seamlessly integrated with Feu Vert's Sage ERP application, Esker delivers numerous benefits, including:

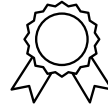

88% of invoices require no human intervention

Improved invoice traceability

Increased productivity, with invoice processing time reduced by six days (11 days instead of 17)

Revaluated AP role and increased level of staff competency enabling them to spend more time on value-added tasks

Improved supplier relationships

Increased AP direct confirmation process (up to 80% from 60%)

Ability to absorb a constant 15% increase in invoice volumes due to external growth

*"Esker's solution has been **extremely beneficial** to the day-to-day life of our accounting teams. Responsibilities are no longer defined by tasks, but by suppliers, enabling the teams to **work better together without silos.**"*

Alexandra Vlatkovic | Assistant Accounting Director
