Invoice Automation From Procure-to-Pay All the Way Through to Cash Allocation

Oh, plus full integration with SAP.

A key focus for them has been ensuring work processes and technology kept pace with huge global growth. Handling 40,000 invoices a year without the right tools, manually reconciling payments and a lack of visibility was not the way forward.

Gallagher now have a constantly improving finance suite using AI, one that includes allocating cash as well as integrating everything with SAP. What's more, is they can now see exactly what's going on with intuitive analytics and customisable dashboards.

Paul Moore, Finance Transformation Lead, Gallagher Group

Solution

"Gallagher needed a solution to streamline their procure-to-pay and cash allocation processes, and it needed to integrate with their SAP system," says Al van Seventer, Consulting Team Lead, Fujifilm Process Automation.

As New Zealand's local Esker partner, FUJIFILM Business Innovation were 100% confident it was the right tool to deliver for Gallagher, both now and well into the future.

FUJIFILM Business Innovation team worked closely with Gallagher, learning exactly how they work, then were tasked with implementing Esker Procure-to-Pay and Cash Application.

40,000 invoices a year are now processed through Esker and payments are allocated much faster with greater accuracy.

With Esker's purpose built AI at its core, it's constantly learning and improving - can detect fraud and forecast payments based on previous activity and invoices in progress.

"It's a powerful system that delivers exactly what Gallagher needed to work smarter," says Al.

Results

Custom, real-time dashboards

Esker reduced operator time by 40%

Grown the business while maintaining staff levels

Each global cost centre now has full visibility

■ ■ ■ “We’ve reduced operator time by 40%
■ ■ ■ since implementing Esker, meaning we can
■ ■ ■ accomplish more with the same number of
■ ■ ■ staff. We’ve been able to grow a number of
■ ■ ■ transactional areas and grow our business
■ ■ ■ while maintaining staffing levels.”
