

LUXASIA

ABOUT LUXASIA

Industry: Retail

ERP: SAP

Solution: Procure-to-Pay

The Luxasia Group is a luxury specialist in retail and distribution with headquarters in Singapore and 15 locations across Asia. Luxasia is focused on bringing the best global luxury brands to Asia. Its portfolio, which consists of brands such as Burberry, Bvlgari, Dior, Diptyque, Ferragamo, Hermes, La Prairie and Prada, is curated from over 30 years of experience in the luxury beauty industry.

50% faster invoice processing

Improved employee productivity

Streamlined approval processes thanks to Esker's mobile app

LUXASIA CUSTOMER STORY

INCREASING EFFICIENCY & EMPLOYEE & SUPPLIER SATISFACTION WITH P2P AUTOMATION

As a rapidly growing company in the luxury beauty industry, Luxasia was looking to set up a Shared Services Centre (SSC) in Malaysia to centralise its accounting department and automate the processing of supplier invoices — initially for its headquarters in Singapore and then, in a second phase, for its subsidiaries across Asia.

At the same time, Luxasia also began to rethink internal operations and move to automate additional processes, including purchase requisitions and expense claims. Luxasia selected Esker's Procure-to-Pay automation solution and has significantly improved its overall accounting process, streamlined workflows, eliminated all paper documents, and increased employee and supplier satisfaction.

ENHANCED VISIBILITY & FASTER APPROVAL WORKFLOW

Employees seeking invoice approvals had previously created purchase requisitions by hand and printed them out. Purchase orders (POs) were then manually created in the company's SAP® system, making it difficult to coordinate and retrieve information and documents. In addition to operational costs and workload escalating, the overall invoicing process was progressively slower, resulting in increased dissatisfaction among employees and suppliers.

“WITH FULL PROCESS VISIBILITY, WE ARE CONFIDENT THAT ALL DOCUMENTS MAKE THEIR WAY THROUGH THE SYSTEM & KNOW THAT WE WILL BE PROMPTED IF AN ISSUE REQUIRES IMMEDIATE ACTION.”

ACCOUNT EXECUTIVE

Thanks to Esker, Luxasia can now raise a purchase requisition and trigger a workflow for approval of non-inventory items. As a result, workflow approval time is four times faster as Esker provides notifications to approvers. Once the purchase requisition is approved, Esker creates the corresponding PO and automatically sends a copy to the supplier. The receiver creates the goods receipt by entering the quantity received and the information is pushed to SAP.

By automating its purchasing process, Luxasia has been able to eliminate paper approvals and gain visibility over the entire process, particularly for those outside of the purchase requisition process. Esker's mobile application, Esker Anywhere™, has also increased P2P efficiency thanks to fewer slowdowns and faster approvals.

“ESKER HAS MADE EVERYONE'S LIFE MUCH EASIER THANKS TO MOBILE ACCESS.”

ESKER'S SOLUTION IS FABULOUS! THE INTERFACE IS VERY USER FRIENDLY & INTUITIVE.

ACCOUNT EXECUTIVE

SIMPLIFIED PROCESS & ENHANCED COMMUNICATIONS

Luxasia was also processing its internal expense claims by hand. Employees would use Excel spreadsheets, scan paper receipts, then print and pass them on to an accounts payable (AP) specialist to process. The AP specialist would then have to manually enter the information into SAP.

The expense claim automation functionality has helped Luxasia reduce 80% of paper use, as users no longer need to print hard copy receipts. Employees can now track their claims and easily communicate with the AP team using the comments section in the solution interface.

INCREASED EMPLOYEE PRODUCTIVITY & STREAMLINED PROCESSES

With manual data entry eliminated, processing rates have more than doubled and processing capacity has increased by 2.5 times. In the same amount of time it took to process 400 invoices, AP specialists now process over 1,000 invoices. "Beyond the increase in productivity and process visibility, we have been able to streamline and standardise our processes, as well as align accounting entries which were not consistent regionally," said Zulaifah Abdul Ghani.

Luxasia now automates its 36,000 annual supplier invoices at its recently created SSC. Esker's multi-language capabilities, template-free technology and external-ERP workflow eliminate the headache of processing diverse invoice formats and languages from multiple offices. Esker has delivered new levels of efficiency to Luxasia's SSC.

"WE HAVE BEEN ABLE TO STANDARDISE OUR PAYMENT CYCLES ACROSS EIGHT COUNTRIES & WITH NONE OF THE BACKLOGS WE ENCOUNTERED PRIOR TO USING ESKER."

AGILE METHODOLOGY & REDUCED OPERATIONAL COSTS

Esker's solution was implemented quickly thanks to Esker's use of the Agile Methodology and is seamlessly integrated with Luxasia's SAP system. Esker's portal has helped Luxasia achieve costs savings as more vendors are using the supplier portal, resulting in increased early payment discounts. Additionally, with invoices submitted via the portal, physical archiving costs are down.

"THANKS TO ESKER, WE ARE ABLE TO ACHIEVE MAJOR COSTS SAVINGS."

ZULAIFAH ABDUL GHANI | COUNTRY FINANCE LEAD, MALAYSIA & INDONESIA

BUSINESS CONTINUITY

Esker's comprehensive solution allows Luxasia's P2P operations to continue running smoothly and uninterrupted, from any location.

"ESKER'S P2P SOLUTION HAS ENABLED US TO EASILY OPERATE REMOTELY WITH NO INTERRUPTIONS TO WORK, AS WE ARE FAMILIAR WITH THE PLATFORM. WE ARE PLEASED THAT ESKER IS SUPPORTING US IN OUR LONG TERM VISION OF FURTHER INCREASING PRODUCTIVITY AND REDUCING COSTS."
